FOREWORD

The 1950 Statistical Summary for the Public Schools of Arkansas represents a compilation of pertinent data concerning the Public Schools of Arkansas as well as other State Educational Agencies for the biennium July 1, 1948 through June 30, 1950.

This Statistical Summary has been prepared for the use and information of the members of the Arkansas General Assembly as well as school officials, patrons, and other parties interested in education in the State of Arkansas.

The office of the State Comptroller has been most helpful in the compilation of these data, and their assistance is greatly appreciated.

It will be noticed in comparing this Summary with the ones of previous years that many of the various State Educational Funds have been omitted. This is due to the effect of the Revenue Stabilization Law, Act 311 of 1945, as amended by Act 114 of 1947, which created a new system of collection and distribution of revenues, eliminating the earmarking of revenues for specific purposes. The proceeds of taxes that formerly went into these funds are now placed in and disbursed from the General Revenue Allocation Fund.

Several of the tables presented in this report have been modified in order that they shall depict a more realistic picture of public school expenditures. Building fund monies are reported in the financial tables but under separate headings for the school year 1949-50. Building fund expense relates the dollar volume of school building expenditures in a fiscal year and should not be considered as an actual operational expense since debt retirement of the building costs will occur in the years to follow.

School lunch is reported in a separate table so that this important program shall be better understood.
